MAN GUARDING

Our Man Guarding service is provided by a team of highly trained and equipped security personnel. They are responsible for protecting buildings, grounds, and the people inside them. They can be in uniform or plain clothes and their main objective is to ensure the safety and security of the facility by enforcing rules and regulations. They are also available for VIP protection and the escort of material and personnel.

Their duties include enforcing rules and regulations, directing traffic, maintaining peace and order, and assisting those in need of help. They are familiar with all special and general orders and ensure that they are followed. They also supervise and enforce systems for identifying personnel and vehicles, conduct package inspections, and stop unauthorized individuals from entering or leaving the facility.

Periodic inspections are conducted to ensure the overall security and safety of the facility. They act on behalf of management to maintain order and report any incidents that disrupt it. They also report any employees who violate policies or engage in loitering, and all accidents involving employees. They keep track of lost or unclaimed property and report any stolen items to the supervisor. They also report any unusual occurrences to their supervisors.

EMERGENCY RESPONSE TEAM

These are specially trained and well equipped guards stationed at vantage points to combat overwhelming situations/ occurrences. They act as a back-up plan for emergency response and for all our alarm triggers. They are strategically deployed across Accra and Tema for swift and timely response (between 5-15 min)

ELECTRONIC SECURITY SYSTEMS AND SOLUTIONS

Our company specializes in the installation of CCTV and alarm systems for residential and commercial properties. Our expert team provides guidance on the positioning and setup of CCTV cameras, wired and wireless alarm systems, along with various components like motion sensors, smoke detectors, and door contacts. Additionally, we offer razor wiring and electronic fencing services to enhance security for homes, industries, workshops, and offices. Our latest offering, the Edern Alarm System, is a comprehensive wireless solution customizable to meet different monitoring needs, including fire alarms, glass break detectors, and intrusion prevention. It's easy to install, user-friendly, affordable, and suitable for both residential and business purposes. Remote monitoring is available through our monitoring stations. Contact us for a reliable and cost-effective security solution tailored to your needs.

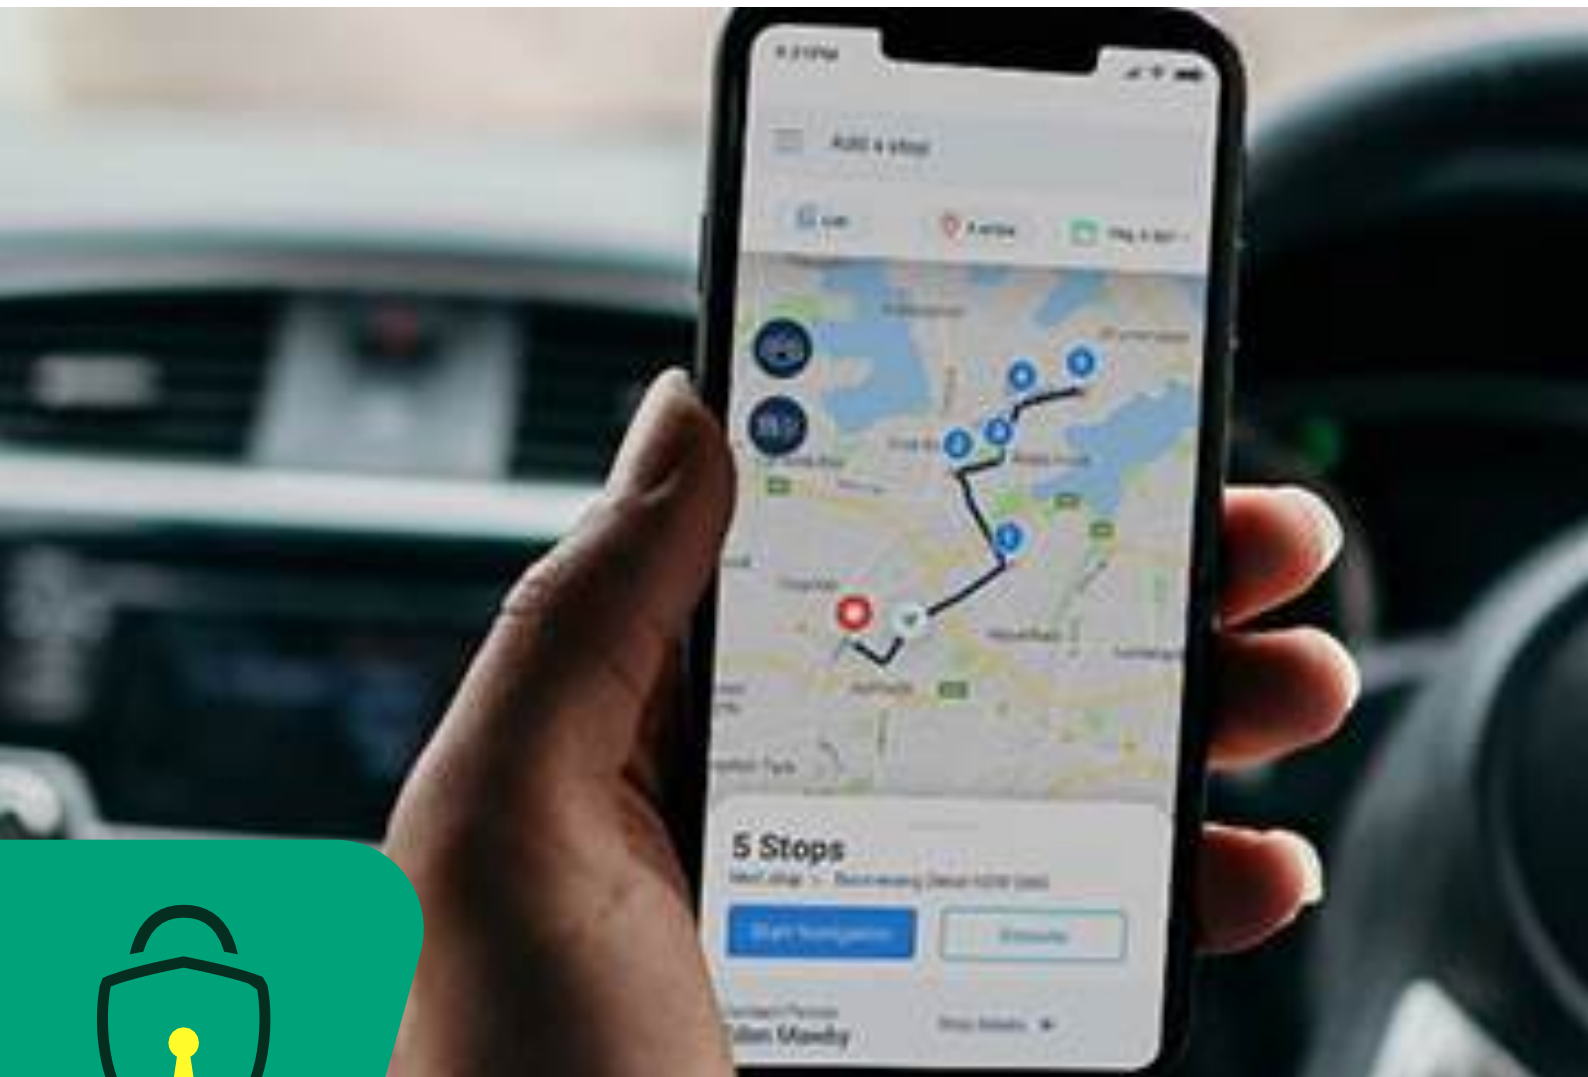

EXECUTIVE TRANSPORTATION/ ESCORT SERVICES

Discover the epitome of executive transportation through our premier service custom-tailored to meet your international business requirements. Our team of highly skilled chauffeurs blend exceptional driving expertise with a caring and intuitive approach, ensuring your travel experience is both comfortable and stress-free. Whether it's pre-planned itineraries or last-minute arrangements, our flexible and dependable transportation service efficiently transports your staff or team within your destination. Our fleet of luxurious vehicles are meticulously maintained, guaranteeing a sophisticated and comfortable arrival. Punctuality is our utmost priority, and our well-trained team handles confidential information discreetly, paying keen attention to details and understanding your specific preferences for an extraordinary journey. Place your confidence in our Executive Transportation service for an unparalleled ride. Contact us today to reserve your extraordinary travel experience.

VEHICLE TRACKING

This cutting-edge service enables you to monitor your vehicle's location and status worldwide through your preferred network provider, using a phone, tablet, or computer. Real-time tracking ensures constant oversight, granting you peace of mind and improved operational efficiency. For added security, you can remotely stop and lock your vehicle in case of theft, enhancing protection measures. Moreover, the service offers 24/7 rapid response, immediately alerting you to any incidents such as theft or accidents, enabling swift action. Ideal for fleet managers and business owners, this comprehensive solution ensures the safety and security of your vehicles at all times, regardless of their location.

INVESTIGATIONS UNIT

Our intelligence unit, known as the plainclothes branch, is dedicated to conducting comprehensive background checks and investigations for employees and criminal cases. Our highly skilled and experienced investigators utilize diverse methods and tools to gather information on various individuals, including those with name changes, job applicants and those under interdiction or suspension. The background checks encompass criminal records, credit history, employment records, and other relevant details, while also scrutinizing suspicious behavior. Once the investigation concludes, we deliver a detailed report to the concerned parties. If any criminal activity is detected, the suspects will be handed over to the police for further inquiry and potential prosecution. Our mission is to create a safe and secure work environment by conducting thorough background checks and investigations.

ON-SITE COMMUNITY PATROLS SERVICES

This is a community driven crime prevention solution. Our patrols aim to create safer communities and reduce the response turnaround time (0-7mins). Once a security patrol is set up in your area, a team of experienced react team officers will be deployed on- site to ensure swift and timely response to all alarm triggers. The presence of the react team in the community will help reduce fear among residents and give them peace of mind.

BULLION VAN / CASH-IN-TRANSIT SERVICES

We understand the importance of secure transportation for cash, precious minerals, and other valuable items. Our Cash-in-Transit service provides intelligence-led transportation under heavy security escort. This service is tailored to meet the needs of banking and financial institutions, precious mineral marketing companies, and any other clients in need of secure transportation for their valuables.

SECURITY CONSULTING AND RISK MANAGEMENT

Our company offers expert security advice and services to clients seeking enhanced protection. Our experienced team conducts thorough reviews of your existing security programs, providing specialized guidance on equipment, positioning, and procedures to strengthen your organization's defense against potential threats. Our comprehensive security training programs are designed to address modern challenges and operational contingencies, empowering in-house security teams of institutions and organizations with up-to-date knowledge and skills. We cover various security areas, including access control, customer service, report writing, radio communication, first aid, emergency procedures, and fire safety management. By tailoring our services to your specific needs, we aim to equip our clients with the necessary expertise to safeguard their organizations effectively.

EVENT SECURITY

Our company specializes in providing trained personnel for event security services. We understand the importance of maintaining a safe and secure environment for both attendees and staff at events of all types, including parties, funerals, outdoor events, promotional events, and more.

Our services include crowd control, which involves managing and directing large groups of people to ensure their safety and prevent chaos. We also provide traffic control services to manage the flow of vehicles and pedestrians in and around the event venue, helping to prevent accidents and congestion. Additionally, we offer access control services to ensure that only authorized individuals are able to enter the event, thereby reducing the risk of theft or vandalism.

DONATION TO MANET POLICE STATION

RECRUITMENT, SELECTION AND TRAINING PLAN

APPLICANT SCREENING

Top Management has resolved to make the screening and verifying of our personnel one of the key to our success. All security officers will pass through ESSL rigorous selection, screening and training process. Only high caliber security guards will be selected through extensive screening and verifying procedures with the assistance of the Ghana Police Service, including verifiable viewing and on-going performance review of Personnel. We conduct both covert (secret- community) and overt (open- police finger prints and external) background checks on security personnel.

TRAINING

ESSL conducts training that exceeds that of any of our competitor's programs. Apart from the general and physical security training given to the guards and supervisors in order to provide and maintain effective control of discipline, determine physical fitness of personnel, endurance capacity, mental abilities and intelligence, they are taken through other comprehensive training such as;

- 30-hour Guard Defensive Tactics
- 24-hour Patrol Techniques & Criminal Law
- 16-hour Customer Service & Public Relation

Security personnel receives On-the-Job refresher Training program every 6 months to bring them up to speed with current trends in security. Site specific training is also conducted on the basis of customer requirements.

SUPERVISION

Edern Security places utmost importance on the supervision of its personnel, adhering to international standards. Effective communication tools such as radios and mobile phones are utilized for monitoring guard operations. Continuous monitoring of guard progress and proactive support through counsel, advice, and direction is provided by the supervisors. They also offer solutions to challenges encountered during duty.

Our primary objective is to deliver consistently high-quality service to our valued clients. We recognize that achieving this goal hinges on effective supervision. Our approach to close supervision ensures “Maximum & Total Security,” instilling confidence in our numerous clients. Every member of our organization is dedicated to full-service security, and we strive to deliver the highest level of service in all aspects.

GUARD MONITORING SYSTEM

Our guard monitoring solution is flexible and can be tailored to provide for unique security and safety needs. It offers the following;

- Monitor security guard activities in real time.
- Enhance security protection of assets and personnel.
- Improve operational efficiency.
- Its user friendly i.e., comes with an app

LOGISTICS SUPPORT

ESSL procurement or stores department ensures that stock levels for our core operational items such as uniforms, batons, badge, lanyards, raincoat, whistles, security boots, daily occurrence log books etc required for our operations are constantly at the agreed stock levels i.e. not less than 30%.

Guards are issued with a set of uniform at least twice yearly. Kits including approved uniform, batons, badge, whistles, raincoat and flashlight are issued to guards as appropriate to assigned to beats.

TRANSPORT

ESSL has adequate fleet of vehicles and motorcycles for the various departments and branch operational needs, but a lot more attention is given to the operations department since that's our core business area.

CONCLUSION

The combination of impartiality and experience enables us to perform effectively and efficiently. We seek to add measurable value at each stage of the process. We have a strong track record achieved by a team of credible and respected professionals. Our professional fees are always designed to be flexible and innovative to meet the changing circumstances of our clients – time based contingent fees or equity participation. We however are available for further discussions. We thank you for the opportunity to present our credentials and look forward to continue doing business with you.
